* Parole Guidelines were adopted in July 2020 and data collection began immediately. As data are not yet available for analysis, guidelines have not been validated and therefore do not indicate an individual's likelihood to be successful if paroled. Planning for validation of parole guidelines includes initial assessment in 2022. After validation of the guidelines more information will be available on the actual predictive nature of this tool and therefore revisions may be necessary.

** A conformance rate indicates the percentage of cases where the Board's decisions matched that of the recommendation from the Parole Guidelines. The Board maintains discretion on all parole decisions.

* Parole Guidelines were adopted in July 2020 and data collection began immediately. As data are not yet available for analysis, guidelines have not been validated and therefore do not indicate an individual’s likelihood to be successful if paroled. Planning for validation of parole guidelines includes initial assessment in 2022. After validation of the guidelines more information will be available on the actual predictive nature of this tool and therefore revisions may be necessary.

** A conformance rate indicates the percentage of cases where the Board’s decisions matched that of the recommendation from the Parole Guidelines. The Board maintains discretion on all parole decisions.

* DRCs offer treatment services to offenders who have high criminogenic needs and are available to judges as a form of alternate sentencing. The three-phase, evidence-based program helps clients assimilate back into society after incarceration. Although these facilities have only existed in Alabama since 2015, the Bureau has already seen evidence to their impact on individuals who complete programming. YTD indicates Oct 2021 through Sept 2022.

*Alabama consists of many rural communities, presenting challenges to delivering the type and scope of services that offenders typically receive in full Day Reporting Centers. Therefore, the Bureau has adopted the DRC Lites model for smaller, more rural offices. DRC Lites are condensed versions of DRCs and offer similar programming but are limited to focusing on cognitive behavioral treatment, substance dependence assistance and educational/job training.

*Phase level will be included at a later date.*

</tr>
</tbody>
</table>

** Funding by the Legislature for FY 2022 will expand electronic monitoring statewide to include offenders that meet the following criteria: Violent Class A, Violent Sex Offender, and High and Very High-risk per policy.

*** Funding for electronic monitoring of High to Very High risk has been provided by the Department of Justice through a Swift, Certain and Fair grant award. (15PBJA-21-GG-02700-PBJH)
