\* Parole Guidelines were adopted in July 2020 and data collection began immediately. As data are not yet available for analysis, guidelines have not been validated and therefore do not indicate an individuals likelihood to be successful if paroled. Planning for validation of parole guidelines includes initial assessment in 2022. After validation of the guidelines more information will be available on the actual predictive nature of this tool and therefore revisions may be necessary.

\*\* A conformance rate indicates the percentage of cases where the Board's decisions matched that of the recommendation from the Parole Guidelines. The Board maintains descretion on all parole decisions.

\* Parole Guidelines were adopted in July 2020 and data collection began immediately. As data are not yet available for analysis, guidelines have not been validated and therefore do not indicate an individual's likelihood to be successful if paroled. Planning for validation of parole guidelines includes initial assessment in 2022. After validation of the guidelines more information will be available on the actual predictive nature of this tool and therefore revisions may be necessary.

\*\* A conformance rate indicates the percentage of cases where the Board's decisions matched that of the recommendation from the Parole Guidelines. The Board maintains discretion on all parole decisions.
